

**International Conference on Information Systems and Technology Management
Double Event: 11th World Continuous Auditing Conference**

Call for Papers

The **3rd International Conference on Information Systems and Technology Management – CONTECSI** and **11th World Continuous Auditing Conference** are a groundbreaking event in its specific area, focusing on Information Systems and Technology Management under a multidisciplinary view. **CONTECSI** and **WCA** aim at putting together academics and professionals involved in IT and Systems management for a state-of-the-art discussion.

CONTECSI and **WCA** will count on renowned keynote speakers, and will welcome papers submission for presentation and panel discussions. Foreign personalities, professors and researchers are expected. The purpose is to discuss the effects of Information Technology and Information Systems on Organizations and on Society as a whole, putting together a community in constant search for answers to meet the never stopping challenges in the area. As a result of a close relationship developed with Technology and Information Management researchers along the years, foreign researchers are expected to contribute for the integration between the academic and the professional communities, thus widening the interest in research, in updated information sharing, and in the practices currently in use in the market. Papers may present theory, applications or practical experiences on topics including, but not limited to:
